An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The following is an examiner's statement of reasons for allowance: The prior art fails to teach or make obvious controlling the amount of current that is supplied to said tilt adjustment coil on the basis of a signal in which the obtained DC voltage value is added to an AC signal included in the drive signal that is supplied to said focusing coil at the time.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
